

## Jeyasuriya Product Support Engineer

+91-7639474699 | [LinkedIn](#) | [Jeyasuriyajeganathan@gmail.com](mailto:Jeyasuriyajeganathan@gmail.com) | Theni, Tamil Nadu, India.

### PROFESSIONAL SUMMARY:

Detail-oriented Data Analyst with 4 years of experience in building and optimizing business solutions using MS SQL Server and SSIS. Skilled in ETL processes for accurate and seamless data integration. Expert in writing complex SQL queries, stored procedures, and functions using DML and DDL. Proficient in using joins and subqueries to analyze data from multiple sources. Experienced in managing development, QA, and production databases, including server migrations. Focused on performance tuning, data accuracy, and troubleshooting.

### TECHNICAL SKILLS:

- **Integration Service** : SQL Server Integration Services (SSIS)
- **Database** : Microsoft SQL Server (SQL, T-SQL)
- **Data visualization** : Power BI
- **Tools** : Oracle(SQL), Postman & RETS Connector, Elastic Search (Kibana), Excel, JIRA

### PROFESSIONAL EXPERIENCE:

#### Gabriels Technology Solutions – Madurai

**Data Analyst - [November 2021 – June 2025]**

#### Responsibilities:

- Designed, implemented, and maintained complex SQL queries, stored procedures, views, triggers, and user-defined functions to address business requirements.
- Executed ETL processes using SSIS, ensuring seamless data extraction, transformation, and loading from multiple sources.
- Analyzed and managed the integration of data feeds into data warehouse tables.
- Maintained C#.Net Windows console applications for downloading input feeds using HTTP, FTP, RETS, API, and Web Services.
- Verified and migrated accurate data from staging to production environments.
- Provided ETL support for day-to-day operations and troubleshooting for SQL queries, stored procedures, and jobs.
- Developed ETL workflows by building and implementing new SSIS packages.
- Overseeing and scheduling the SQL jobs while ensuring their ongoing maintenance.

#### Achievements:

- Implemented Delta Loading an Optimized process for Data loading.
- Managed migration and setup of feeds for multiple real estate clients.
- Resolved a range of issues for various real estate clients.
- Conducted requirement analysis and designed SQL queries based on provided specifications.

#### IVY Mobility Solution – Chennai

**Product Support Engineer (AMS) - [June 2025 – Present]**

#### Responsibilities:

- Delivered end-to-end application support for a cloud-based Supply Chain Management platform.
- Performed purging activities by executing SQL scripts to maintain database performance and integrity.
- Wrote and optimized complex SQL queries to investigate, troubleshoot, and resolve backend data issues.

- Collaborated with cross-functional teams (developers, QA, and business analysts) to resolve customer-reported issues.
- Assisted clients during production incidents, ensuring SLA compliance and timely communication.
- Analyzed recurring incidents and suggested process improvements to reduce support ticket volume.
- Provided ad-hoc data reports to clients and internal teams using SQL Developer.

## **EDUCATION**

**July 2015 to May 2019**

### **Bachelor of Engineering**

R.V.S College of engineering and technology, Coimbatore.
